During the early stages of The Woodlands George Mitchell was on a continuous search for talent to join his team to create a great livable community, and he was successful in his quest. Pictured above are three of the many early recruits who bought into his vision and joined his development team.

At lower left is Dr. David Gottlieb who joined from University of Houston to recruit technology firms to locate in the Research Forest. Don Gebert standing behind Gottlieb relocated from a major charitable foundation in Philadelphia to serve as first CEO of Interfaith and build related social infrastructure. Bob Williams who is to Gebert's right was recruited from YMCA experience in Chicago to engage in early operations of the Swim and Athletic Center and later formed the Kiwanis Club and the Annual Prayer Breakfast in the Community.

Also pictured Club Member Dann Hauser is to left of the photo and Roger Galatas, President of Coffee Club is to the far right of the photo; both were involved in organizing the event to recognize Honoree Members.
